Masons Install Officers For 1932

On St. John's Night, Dec. 28th, the officers of King Hiram Masonic Lodge for 1932 were installed, Rt. Wor. Bro. A. Brusco acting as installing officer.

The following officers were installed:

Wor. Bro. C. H. Ashhead, W.M.
Wor. Bro. E. Craig, L.P.M.
Bro. Geo. A. Burns, S.W.
Bro. C. Mortimer, J.W.
Bro. J. Seranton, Chaplain
Wor. Bro. G. H. Liesemer, Tiler
Bro. H. Morgan, Sec.
Bro. T. Johnson, Doct.
Bro. W. M. Smith, J.D.
Bro. R. S. F. Brown, S.S.
Bro. H. Hessegood, J.S.
Wor. Bro. H. C. Liesemer, Organist
Wor. Bro. J. L. Clarke, Doct.
Bro. J. Kirby, J.G.
Bro. S. Franklin, Tyler

After the installation ceremony, the members and their ladies were entertained to a social evening in the Oddfellows Hall, and a delightful time was spent.

District Court Sitings.

According to the Alberta Gazette, the District Court has been scheduled to sit in Didsbury on February 17th, May 18th and October 12th during 1932.

Weekly Sermonette.

"Our credit in heaven is not determined by what we give, but by what we have left."

Car Licenses Are Now Available

The 1932 license plates for Didsbury motorists were received by the Alberta license office this week.

Alberta licensees for 1932 will carry black numbers on a white background, and the plates will cost five dollars more than the 1931 variety.

Forms giving detailed information regarding each car licensed last year, are being mailed from Edmonton and will be received by local motorists. Car owners are urgently requested to bring these forms to the license office when applying for this year's licenses so as to reduce the work necessary in issuing the new plates.

There will be a delay in issuing truck licenses, as the regulations regarding these licenses have not yet been passed.

CURLING.

On Wednesday evening of last week, friendly games were played with Carstairs.

Dr. Clarke and Chas. Cook took rinks to Carstairs and lost three out of the four games played. The Clarke rink lost both their games and the Cook rink won one and lost one.

Tables were turned on the Carstairs rinks which visited Didsbury the same evening. The McCloy Sinclair and Brusco rinks won their games, while the McGhee rink lost.

Miss Olive Chamberlain, of the Red Deer telephone exchange, spent Christmas with her parents here.

LOCAL & GENERAL

Mr. J. Pearson, of Olds spent New Year's with friends here.

Mr. Dan Windsor spent Christmas with his son at High River.

Messrs. T. Johnson and J. Kirby spent Christmas in Calgary.

Mr. and Mrs. A. N. Carlson spent the week-end with the latter's parents, Mr. and Mrs. A. Stauffer.

Misses Emily and Ruth Morle returned to Edmonton after spending the holidays at their home here.

Mr. H. O. Tomjum spent the holiday with Dr. and Mrs. Palmer at Elmore.

Mr. W. J. McCoy and Walter spent the holidays at their home here.

Mr. and Mrs. H. W. Chambers spent New Year's with friends at Okotoks.

Dr. and Mrs. J. L. Clarke and family spent Christmas in the capital city.

Mr. Gordon Ford, of Burnt Stick Lake spent the holiday with his brothers here.

Messrs. Aylmer Liesemer and Jack Cutler spent the holiday with Mr. and Mrs. J. Liesemer.

Mr. and Mrs. Hugh Lee visited with friends in Calgary during the holidays.

Hard Time Dance in aid of the Didsbury General Hospital will be given in the Opera House on Friday January 29th.

We have it on good authority that there will be a tremendous racket of wedding bells in the vicinity of the Pioneer in the early spring.

Messrs. Gray Sharp, Frank Moyle, George Hawkes and Elmer Evans returned this week to the University of Alberta at Edmonton.

Mr. and Mrs. James Mitchell and Miss Edith Mitchell, of Calgary and Mr. Alex Mitchell, of Edmonton spent the holidays with their parents, Rev. and Mrs. A. J. Mitchell.

The friends and neighbors of the late Mrs. George Metz, in the district of Burnside wish to convey their deepest sympathy to Mr. George Metz and family in their recent bereavement.

"Huckleberry Finn," Mark Twain's classic of fun and adventure will be shown at the Opera House Monday and Thursday, January 11 and 14, with Jackie Coogan and Mildred Green in the feature roles. This picture will be thoroughly enjoyed by both young and old.

BORN: To Mrs. Bob Stevens, on January 4th, a son.

WEDDINGS

SMITH-BUCKLER.

The quiet wedding of Della Caroline Buckler, third daughter of Mr. A. V. Buckler, of Didsbury, and Mr. Albert Graham Smith, son of Mrs. Chas. Brown, of Didsbury, and the late Mr. Richard Smith, an old-timer of the Cochrane district, was solemnized at the Central United Church, Calgary on Wednesday, December 22nd at 8 p.m., the Rev. J. E. Todd officiating.

Following a short honeymoon, the happy couple will reside on their ranch west of Didsbury.

STAUFFER-SCHRAM.

A very pretty wedding was solemnized on Sunday, December 27th at the home of Mr. and Mrs. Roy Schram, north-east of Olds, when their daughter, Lucy, was united in marriage with Wayne, eldest son of Mr. and Mrs. Albert Stauffer, of Didsbury. Mrs. Harold Fisher played the wedding March, following which the ceremony was performed by Rev. George Johnson, of Calgary.

The bride, who was given in marriage by her father, looked charming in a gown of ivory georgette, and was attended by her sister, Miss Gladys Schram, of Chicago, as bridesmaid. Mr. Bates, of Calgary acted as best man. The happy couple were recipients of many valuable gifts.

After the ceremony, about fifty guests sat down to a delightful wedding lunch served by the hostess, Mr. and Mrs. Stauffer then left for their new home at Lamy-bryn, near Crossfield.

STAUFFER-NEILSON.

A very pretty wedding was solemnized at the home of Peter Neilson, of Virdi, Alberta on Tuesday, Dec. 29th, 1931, when Dora Stella, eldest daughter of Peter Neilson, was united in marriage with his Stauffer, of Didsbury, Alberta. Rev. Virgil Snyder performed the ceremony.

The bride, beautifully gowned in white georgette and lace, was attended by her sister, Edna, who wore pink silk. Both bride and bridesmaid carried bouquets of ferns and roses. The groom was attended by his brother, Lloyd Stauffer, Miss Ella Stauffer, sister of the groom played "Wedding Bells" as the bridal procession took its place beneath a pretty arch of ferns and white bells which decorated the room.

Alberta Legislature Called.

Members of the Alberta legislature will be summoned to attend the second session of the seventh legislature on Thursday, February 4th, according to an announcement made on Wednesday by Premier J. E. Brownlee.

Obituary.

Mrs. GEORGE METZ.

The death of Mrs. George Metz occurred at her home, east of Didsbury on Wednesday, December 30th, 1931, after being in poor health for some time, at the age of 56 years and 9 months.

Mrs. Metz was born in Normandy County, Ontario in 1875 and was married to George Metz in 1901. Shortly after their marriage they moved to Manitoba. In 1905 they came to Didsbury and have farmed east of here since that time.

She leaves to mourn her loss: her husband; three sons, Harold, Wilfred, George, and four daughters, Ruth, Ruby, Gretta and Alberta.

The funeral took place on Friday, January 1st, 1932 at the Evangelical Church, Rev. H. J. Wood conducting the service, assisted by Revs. Hallman and Spiese.

Coming Events

Jan. 8: Rugby Cheer-up Club dance.

Didsbury Rebekahs will give a bridge and whist party in the Oddfellows' Hall on Monday, Jan. 11th.

The postponed annual meeting of the local C.F.A. will be held in the old United Church on Friday, Jan. 15th at 2 p.m.

Hospital Hard Time Dance on Friday, January 29th.

Following the ceremony, a bounteous dinner was served to about fifty guests. Many beautiful gifts were presented as tokens of love and best wishes.

After a short honeymoon in Calgary, the happy couple came to Didsbury, where a reception was given the groom's parents.

Mr. and Mrs. Stauffer will be at home in Didsbury after January 4th, 1932.

Sharp Pains In His Heart Nerves In Bad Condition

Mr. Fred J. Chase, Thomson Station, N.S., writes:—"I have used Milburn's Heart and Nerve Pills with wonderful results. My heart would beat so fast I would have to sit down when at work chopping in the woods. I had sharp pains in my heart when I would lie down at night. My nerves were also in a very bad condition, after using two boxes of Milburn's Heart and Nerve Pills I feel just fine, and am fourteen pounds heavier than I have been for years."

Present Day Heroes

This is a good time to keep eyes open for heroes, writes William T. Ellis in one of his syndicated newspaper articles.

None of us ever quite grew away from our childhood admiration for heroes, but as we grow older we realize that heroes and heroines are not confined to fairy tales, or tales of fiction, or even to historic happenings of by-gone ages. There are heroes among us at all times, and in all walks of life. They are unusually plentiful at the present time.

We would, with Mr. Ellis, enumerate the brave, self-respecting families who are finding a way to carry on normally, the employers who are straining financial and mental resources to keep their workers on the payroll; the women who are magnificently bearing the heaviest burdens of all; the public leaders who are keeping their heads and bending every effort toward helpfulness.

We think of a young Scotch lad, without education, whose parents with a numerous family of young children are on the dole in the Old Country, who came to Western Canada some years ago and laboured as a farm hand, sending of his meagre earnings to his mother. Then came crop failures and depression, and he became one of the big army of unemployed. Coming in to one of the cities he has courageously tackled any work he could get, perhaps only a fifteen minute task, some days in succession nothing at all, but he has never hesitated, never lost his courage, never allowed himself to slip into bad habits. He is just as particular about the cleanliness of his person and his patched-up clothes as during better times. Some of his friends welcomed deportation back home where they could get on the dole, but he refused to go back to be a burden on others, saying times would change for the better, and that opportunities in Western Canada would then be greater than in the Old Land. So he sticks, cheerfully doing his best, and never complaining. He is a hero.

There is another young man, and, thank God, there are myriads like him, who is a victim of the times. He is an educated man, married, with a small family and his own home. When the bottom fell out of his world, he did not lose his head. Instead, he considered conditions a challenge to his capacities. Like a warrior suddenly beset by new foes, he simply called upon his powers for redoubled valor. Because he has brains, he knew that it lay with himself whether he should come out of the conflict a spiritual victor or victim. That is to say, he perceived that whatever happened to his estate, the real man could not be defeated.

So with head up and a smile of confidence on his face, he has fared forth to do new battle with business. With indomitable persistence and ingenuity he has tried one venture after another. Today, he is making a livelihood, but no more; yet he is confident that there is a good time coming. His friends do not know how severely he has been pinched. He keeps up his normal social relationships and activity. Wherever he goes, he radiates optimism. His faith in himself, in his fellow men and in his country is unshaken. He is out to get the most out of this hard experience. He is more of a man, by every standard, than he was when he held down what seemed an assured and comfortable position.

Then there are our school teacher heroines—scores of them. Instance after instance could be recorded where a school board, confronted with the necessity of laying off one out of two teachers employed, found the one retained offering to divide her salary with the other in order that the might remain employed and the school maintained in all its old efficiency. These young women are proving they are "real" teachers; not merely holding down a job in order to earn a livelihood. They are demonstrating their love of their profession; they are in their acts teaching the finest of all lessons in character and citizenship.

Yes, these are the days of heroes. Thousands of them will never be known to others; their deeds and courage may never be sung; but they are leaving an impress on their generation, and making a contribution to the present and future of their country beyond all measurement or application of any known standard of value.

British Columbia Prunes

Best Quality Of Prunes Successfully Grown In Canada

As a result of experiments carried out in recent years at the Canadian Government Experimental Farm at Sidney, British Columbia, prunes of the best quality have been successfully grown and dehydrated. This development promises to be of importance to fruit growers in Vancouver Island, for it may mean that eventually prunes grown in British Columbia will find a ready market in Canada. The annual importation of prunes and dried plums into Canada is valued at about \$1,000,000.

A mon boy run into debt, but he seldom comes out of it faster than a walk.

Assistance For Farmers

Western Farmers Refuse To Accept Charity, Says Hon. Robt. Weir

Improvement in the quality of livestock, the purest possible strains in grains, grasses and fruits; rigid inspection to insure that the best quality of products were produced for export; uniform supply, and the bringing of the world's markets to agricultural products by the cheapest routes, were advocated by Hon. Robert Weir, Dominion Minister of Agriculture, in an address at the "Agricultural Industries Dinner" of the Royal Winter Fair at Toronto.

Mr. Weir coupled these recommendations with a plea to financiers, manufacturers and others to assist financially and in other ways farmers in need of assistance.

Three years in the west there had been insufficient moisture. High winds and dust had created a situation that was unprecedented. People of the east had earned the undying gratitude of those in the west by their prompt response to appeals for aid. The western farmer, he said, had refused to accept charity and would not accept gifts. They would not accept relief unless they were allowed to sign notes in which they promised to pay when they were able.

Weighing four ounces, a butter of alumina is being shown in London, England.

Silver mined in Mexico in a recent month weighed nearly 442,000 pounds.

Great Memorial Is

Planned For Edison

Will Likely Be Huge Tower With Ever-Burning Light

Mrs. Thomas A. Edison has given her approval to a plan sponsored by the Chamber of Commerce and citizens of the Oranges and Maplewood for erection of a \$100,000 memorial to her late husband on a promontory overlooking the home and laboratories of the dead inventor.

Plans for the memorial have not been decided upon. It is expected that its central feature will be a huge tower, surmounted by an ever-burning light to serve the entire metropolitan area as a aviation beacon.

A nation-wide committee, with President Hoover as honorary chairman, will be organized under present plans. The committee in charge plans to form organizations throughout the world for the purpose of raising funds for the memorial.

Navigating By O'd Methods

Spanish Naval Officer Will Repeat Voyage Of Columbus

To repeat the voyage of Columbus under similar conditions is the plan of an enterprising Spanish naval officer, Capt. Don Julio Guillen. A replica of the Santa Maria used at Seville Expedition in 1492 is to be used for the trip. His crew will consist of 25, as compared with Columbus' 52, but he will navigate the ship by the old methods and will not employ any equipment or instrument invented after that time. Twenty nations of America, as well as the League of Nations, have expressed approval of the voyage. The "Santa Maria" will carry a large stone from Ponce, the starting place of Columbus' venture, to be built into the monumental lighthouse at Santa Domingo which will commemorate the discovery of America.

Aid For Drought Stricken Areas

Ontario Knights of Columbus To Assist Saskatchewan Farmers

A province-wide scheme to aid the sufferers in the drought-stricken areas of South Saskatchewan is being fostered by Ontario Knights of Columbus. An appeal was broadcast to the fraternal organization for aid, in the form of donations of money, food and clothing, by the Bureau of Charities at Regina.

Twelve centres will be organized to collect and send the requirements west, with headquarters at Ottawa. Other centres are situated at Brockville, Elizaville, Toronto, Guelph, Sarnia, Hamilton, Port Arthur, Sault Ste. Marie, Barrie, Ingersoll Falls and Cobalt. The railways have agreed to ship carload lots of donations free of charge.

License For Farm Dogs

Alberta Sheep Breeders Want Protection On Flocks From Stray Dog Menace

Farm dogs in Alberta will carry license in future if a resolution passed at the 22nd annual convention of the Alberta Association of Municipal districts, which was held in Edmonton, is finally approved by the Alberta legislature. Sheep breeders, who were well represented at the sessions, stressed the need of securing adequate protection for their flocks from the dog menace.

Calgary was selected as the convention city for 1922.

Useful In Camp—Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles, and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

Ye Poor Editor

We had a real setback Monday the 12th. Some five or six weeks ago we ran a list of names of "those present" at a neighborhood reunion. Three hundred and nineteen names appeared in the list. Our "setback" was that a woman called us Monday morning and told us that her name was left out of the list and she knew we left it out on purpose. Eric Record.

That Is The Question

Does that new alarm clock which has appeared in Europe and which plays a selection on a phonograph instead of ringing a bell, play? "On, it's nice to get up in the morning," or does it play "It's nice to be in bed?"

For a Central Bank

Queen's University Professor Points To Weakness In Our Banking System

Complete overhauling of Canada's monetary structure, and the establishment of a central bank which would assume the responsibility for credit control, were advocated by Professor C. A. Curtis, of Queen's University, in an address to the Canadian Club at Ottawa. At present, he said, no credit control existed in Canada, and its lack meant a greatly weakened monetary system. Before the war, such control had been exercised by the banks, but the passing of the Finance Act had resulted in removing this control from the banks while it had not yet been accepted by the government. Its re-establishment was much more important than the bringing back of the Canadian dollar to par.

Professor Curtis spoke on the Canadian monetary situation, and he traced the majority of Canada's monetary troubles back to the passing of the Finance Act shortly after the declaration of war. This act, he said, permitted the Finance Department to advance Dominion notes to the banks on presentation of satisfactory collateral. Prior to the war, Dominion notes could be issued up to \$20,000,000 backed to the extent of 25 per cent. by gold, but over that amount there must be dollar for dollar in gold. Consequently, at that time, a Dominion note was practically a gold certificate.

Royal Canadian Academy

Toronto Artist Wins High Praise For Portraiture

Accorded the distinction of being the best balanced show held in Canada in recent years, the 52nd exhibition of the Royal Canadian Academy was held in Montreal recently. Widely representative of the work done in practically every province of the Dominion and offering a broad range of styles, it dealt with the individual approach of the Canadian artist to his work in all its phases.

Of outstanding merit in this group were the two portraits by Mrs. Bart Gerard of Toronto. Her "Portrait of Antonio Beneduce" is not only the most remarkable portrait of the entire exhibition, but it also can be ranked with the most serious work of contemporary artists in Europe.

Douglas' Egyptian Liment relieves toothache and neuralgia. Invaluable in cases of croup, sore throat and quinsy. Keep a bottle handy.

Petition Refused

After an hour's discussion the council of Finchbury, England, decided by a majority of one vote, cast by the chairman, that the petition of a man asking to keep a wheelbarrow in his yard, be denied.

BUCKLEY'S MIXTURE

Boosting Northern Port

Expect Churchill To Be Scene Of Great Activity Next Year

The proposal from prominent government official in England, that coal from England be exchanged for wheat and livestock from western Canada, as a means of increasing inter-empire trade, is considered in well-informed circles as distinctly probable, and there is every possibility the Hudson Bay route will become one of the chief avenues of international commerce if this plan is adopted.

Given even a minimum of government support, in regard to lowered insurance rates, Hudson Bay next year will be a scene of great activity. Already a number of western cattlemen have indicated their intention of shipping cattle by the Bay route. Inquiries have been received regarding feeding possibilities for cattle being shipped over the Bay line. Plenty of hay will be available in The Pas next summer, and more will be shipped to the Bay port from The Pas next spring. But all efforts of western organizations and provincial governments will be in vain unless the Federal Government sees fit to lower insurance rates by absorbing some of the unusually high rates offered, and providing facilities for the unloading of return cargo here.

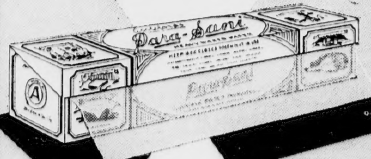

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

Memorial To War Heroes

A great bell has been hung in the Castle of Ravenna, now part of Italy, in memory of the soldiers who fell in the battles that raged round that town for nearly three years. Hungarians and Italians fought against each other, and the bravery of both is commemorated by the bell.

The London zoo once had an albino cobra, almost entirely white and with pink eyes.

Canadian Gold Mines Playing Vital Part In Maintenance Abroad Of Our National Credit

When leading economists and bankers declare that Canadian gold mines are playing a vital part in the maintenance abroad of our national credit; that at home they are aiding materially in the return to prosperity; there are excellent grounds for Canadians to view the future with optimism. Never in the history of the industry have our gold mines been more capable of shouldering so heavy a responsibility.

Our mines are now producing over a million dollars of gold weekly, the highest rate achieved since the inception of gold mining on a commercial scale in Canada twenty-three years ago, and increases beyond this point are assured by expansion programs under way. Those sufficiently close to the picture will not be surprised to see Sir John Aird's prediction of \$100,000,000 a year realized well within the ten-year period conservatively allowed.

In its growth to one of the great mining countries of the world Canada is fulfilling early promises. A comparison of Champlain discovered silver, copper and iron in Nova Scotia as far back as 1604. The Indian had previously found copper, and Jesuit fathers found and mined gold. But the first commercial mining of gold of which there are records, was ushered in with the discovery in 1858 of the famous Fraser River deposits in British Columbia.

From that time forward our gold mining industry met with varying fortunes, production during the period from 1858 to 1912 seeing many ebbs and flows consequent upon the development of discoveries in British Columbia and the Yukon. Gold has now been discovered in every province of the Dominion with the one exception of Prince Edward Island. At times annual gold production fell below a million dollars, at other times the three flowed strong. When Yukon was at the peak the total reached \$28,000,000, of which Yukon accounted for \$22,000,000. This record stood for twenty years, until, in fact, seven years ago.

With the discovery of Porcupine in 1909 and Kirkland Lake two years later a new and more brilliant era was commenced. Three years after Benny Hollinger, Sandy McIntyre, and Jack Wilson staked the Hollinger, McIntyre and Donnie Mines, Ontario gave the first sign of coming greatness in a gold mining sense.

The possibilities of new mines being developed are conceded by those familiar with our mineralized areas to be immeasurably better than any other country in the world. This statement lends international support in the conclusions of the Gold Delegation of the League of Nations. This body, after due consideration, credited Canada with estimates of a rising scale of output over the next decade. Declines in the same period were predicted for all other countries.

Some idea of the benefits conferred on Canada by reason of the sensational development of gold mining in recent years can be gained from the fact that a million dollars weekly of gold production is being infused into the sluggish arteries of commerce. It is a well known fact that a large proportion of receipts goes for payrolls and supplies. A well-known banker who knows nothing from long association in the North has estimated that every dollar spent in gold mining is multiplied twenty-five times as it comes through commercial channels.

From the standpoint of dividends our gold mines have built up a record of which any Canadian may be justly proud. Ontario gold mining alone, at the end of last year, had distributed to stockholders some \$105,000,000. In the current year, with general industry operating so largely "in the red" an amount equivalent to more than one-quarter of the total dividends of Canadian chartered banks for the same period.

The importance of our gold mines to Canada at this critical juncture is perhaps most graphically illustrated by the fact that the current year's production of gold will pay the annual interest on a billion dollars of foreign debt without disturbing our trade balance or impairing the position of the Canadian dollar on foreign exchanges.

By the close of 1934 the Canadian output of gold will reach \$1,000,000,000—St. Catharines Standard.

Canadian Eggs For Export

Considerable Increase Shown In Estimate For This Year

It is estimated that this year 20,000 cases each containing 30 dozen eggs, will be exported to Great Britain from Canada. This marks a considerable revival from the exports in 1929 which totalled approximately 6,500 cases. Already over 8,000 cases of eggs have been shipped to Great Britain from British Columbia via the Panama Canal. The remainder of Canadian exports, originating in the Prairie and Eastern Provinces, will be shipped from Montreal before the end of November. Whether shipments are made by the short water way from Montreal or by the longer route through the Panama Canal, the eggs arrive in Great Britain in first class condition.

In order that the quality of Canadian eggs may be fully dependable at time of export all shipments are required by law to be graded according to Canadian standard grades of quality and inspected by Dominion Government inspectors before shipment. The per capita yearly consumption of eggs in Canada is approximately 572, or more than one egg per day, every day of the year.

The bridegroom and his visible means of support outside of his father yet it was a very fashionable wedding.

Preacher: "Repeat after me, 'With all my worldly goods I thee endow.'"

Bridegroom: "With all my worldly goods I thee endow."

His father (in loud whisper): "There goes his bicycle, Martha."

When 10,000,000 Canadian bees sold for China recently about the "Empress of Russia," they were given comfortable accommodation in the 18 cases shown in the photograph. The unique shipment was carefully handled by the Canadian Pacific line, the bees will be kept at a temperature of 45 degrees. As "bees model," they cannot hatch at such a degree.

A Wheat Menu

This Meal Consists Of Wheat From Soup To Nuts

A menu of all wheat (from soup to nuts), developed by Robert E. Brown, professor of theology at Oberlin, Ohio, College, will be presented to the national unemployment relief committee.

The menu is designed to add both the hungry as well as the over-stocked wheat farmer. He made wheat soup by boiling wheat, staining off the water and seasoning wheat-meal with meat lard. Note a loaf, hot muffins from wheat ground in a coffee mill; parched wheat coffee and parched wheat breakfast food.

Can Detest Renovated Stamps

How renovated used stamps may be detected by use of stilet raps and an acid was told during the trial in Lurgan, Ireland, of John Blaney, charged with using old insurance tax stamps. A government expert demonstrated how the process revealed the cancelled figures which had been erased from the stamps. Blaney was found guilty of using 20 stamps which had been used before.

CANADIAN BEES FOR ORIENT

When 10,000,000 Canadian bees sold for China recently about the "Empress of Russia," they were given comfortable accommodation in the 18 cases shown in the photograph. The unique shipment was carefully handled by the Canadian Pacific line, the bees will be kept at a temperature of 45 degrees. As "bees model," they cannot hatch at such a degree.

Whether 10,000,000 bees, housed in

the Orient was zone could inflict as much damage as half as many soldiers, or whether or not a bee is capable of stinging more than once were some of the speculations heard from a crowd of interested watchers while the loading was in progress.

Altogether there were 1,200 colonies, each with its Italian purchased queen, and were shipped from Taber, Alberta, by R. George Reid, whose company is one of the largest honey-

Radium Discoveries Made In Western Canada May Prove To Be Of Great Significance

Canadian Exhibit Carries off Honors

Apples and Honey At Imperial Fruit Show Receive Awards

Right on the heels of news of better conditions in Britain following the elections comes the interesting information that Canadian apples and honey have begun to reassert their supremacy and make official appeal to all who like good things to eat. At the Imperial Fruit Show in Manchester, held recently, the Dominion did well. In the class open to the British Empire, which included exhibits from Australia, New Zealand and South Africa as well as English-grown fruit, British Columbia secured two second awards, one for dessert and the other for culinary apples.

In the Canadian section honors were divided by British Columbia and Nova Scotia. The Western Province won first for McIntosh, Jonathan, Delicious and Newton, while the eastern side of the Dominion had the best Cox's Orange, King, Golden Russet, Spy, Greenings, Gravenstein and Baldwin. This indicates that the British public is being informed regarding the almost bewildering variety, as well as the excellence, of Canadian apples.

In the honey section there was even more success. Competing in three sections open to all Dominions and colonies, Ontario exhibitors won two first awards, and those from British Columbia one first, two second and three third prizes. This success is certain to attract the attention of British consumers, and should lead to an increase in the Dominion's export business in these wholesome delicacies, which should have a place in any well-regulated system of diet. — Toronto Globe.

Primitive Illumination

Indians in British Columbia Still Use Candle Fish

The candle-fish or colichan is still being used by the Indians in some parts of British Columbia for illuminating purposes. After catching the candle-fish the Indians place them in a dry sheltered place, and wait till they are shriveled and all the water has evaporated from them. They then set the head or tail of the fish alight, and use the carcass as they would a torch. There is so much oil in the carcass that it provides a bright steady flame which burns slowly.

How renovated used stamps may be detected by use of stilet raps and an acid was told during the trial in Lurgan, Ireland, of John Blaney, charged with using old insurance tax stamps. A government expert demonstrated how the process revealed the cancelled figures which had been erased from the stamps. Blaney was found guilty of using 20 stamps which had been used before.

Can Detest Renovated Stamps

How renovated used stamps may be detected by use of stilet raps and an acid was told during the trial in Lurgan, Ireland, of John Blaney, charged with using old insurance tax stamps. A government expert demonstrated how the process revealed the cancelled figures which had been erased from the stamps. Blaney was found guilty of using 20 stamps which had been used before.

How renovated used stamps may be detected by use of stilet raps and an acid was told during the trial in Lurgan, Ireland, of John Blaney, charged with using old insurance tax stamps. A government expert demonstrated how the process revealed the cancelled figures which had been erased from the stamps. Blaney was found guilty of using 20 stamps which had been used before.

CANADIAN BEES FOR ORIENT

Near Great Bear Lake, in the wilds of the Mackenzie district of Canada, mining engineers have been sinking pits into some recently discovered deposits of pitchblende. Working in several extensive veins that run beneath small lakes in the district, miners have dug out enough ore to yield forty tons of pitchblende. So valuable is this ore considered, according to the reference here to the production of radium salts from ore mined in the Belgian Congo and exploited by a Belgian mining concern as one of the world's important sources of radium. According to the report quoted, these rich foreign resources "constitute a threat to those working with poorer ores."

Discovery of the Canadian deposits of pitchblende may have consequences of profound significance to industry and to medical science. If the ore supply tapped in Mackenzie yields as high as 50 per cent. uranium, as reported, it may prove to be a North American source of radium salts rich enough to provide much larger supplies for scientific and therapeutic use than prices set by foreign interests now make available. Pitchblende is not the only known mineral containing uranium—and, therefore, radium—but one of the most valuable ores mined for that purpose. Carnotite and autunite also are among the principal sources of the substance which has become so precious to science and industry.

A new industrial revolution is the application of its gamma rays in testing of steel. The story of this scientific triumph forms a research narrative prepared by Professor Gilbert E. Dean, of Lehigh University and issued by the Engineering Foundation a few days ago. It is a coincidence that the world should be reminded of this newly discovered source of radium within a week of the announcement of recent progress at the pitchblende mines in Mackenzie. The method by which engineers may now test sheets or beams of steel for latent defects by the use of gamma rays is extraordinarily simple. It was applied to the world in September, 1930, by physicists of the Naval Research Laboratory in Washington. The process is somewhat similar to X-ray photography. Placing a tiny capsule of radioactive substance on one side of a twelve-inch steel girder, for instance, engineers pass a film of photographic plate against the other side. The resulting picture discloses even small flaws in the interior of the metal.

The great advantage of this process of X-ray heavy metals is that all necessary equipment may be carried about in a handbag, carried as Professor Dean says, "into a submarine, to the top of a skyscraper, into a machine shop or foundry anywhere that a large object may need examination." Of course the most serious drawback to the extensive use of such a method is the high cost of radium, but the situation may be altered in time by further discoveries of natural resources such as the pitchblende deposits found in Canada. New York Sun.

A Hasty Response

Commenting on the prevalence of slanging, the Governor-General of Canada, speaking at Ottawa, made the statement that "our language is a glorious inheritance—a heritage worth preserving." The popular response, no doubt, will be that the language is "OK" and the Governor-General "O.K."

Machineage methods are now used in the large vineyards of northern Africa.

Feather wings flapped by a glass-line motor propel an Austrian sky-santa's kayak.

"Some men think all their lives after mine, others after I've, and others after mine."

"But I know something that all men think after."

"What is that?"

"After all herings." Karibaiter, et. Chib.

J. E. Gooder, Editor & Manager.

Uncle Sam, Beware!

The observant editor of the Indian Head News has been dipping into history, measuring his findings with present conditions, and drawing inferences which must disturb his own peace of mind and haunt the dreams of his confiding readers.

"The powerful Egyptian empire," says he, "crumbled when two per cent. of the people owned seventy-nine per cent. of the wealth. Babylon went down when two per cent. of the people owned all the wealth. Persia caved in when one per cent. owned all the land. When Rome crashed, 1,880 men owned all the known world."

Having fully envisioned the gruesome significance of the historical data, the scribe turns to current records and finds that two per cent. of the people in the United States now own sixty per cent. of the wealth. Whereupon it did not need a wild flight of imagination to see the handwriting on the wall for Uncle Sam, for, at the speed with which wealth is concentrating, it will not be long before the other forty per cent. joins the captive sixty per cent. in the grip of the greedy two per cent.—Estevan Mercury.

Westcott Notes.

Westcott Women's Institute held their annual business meeting at the schoolhouse on Thursday, Dec. 31st. The following officers for the ensuing year were elected: President, Mrs. R. A. MacFarlane; Vice-President, Mrs. A. Robertson; Secretary, Mrs. H. Levagood. The program for the year was arranged and the prospects for the season's activities are very bright. It was decided to make a comforter for an ex-member and which will be completed at the next meeting. A very delightful lunch was served by Mrs. H. Levagood. The meeting then adjourned.

Weekly Joke.

She: "Before we were married you told me you were well-off."
He: "Well, so I was."

Jutland School Concert.

Jutland School held its annual Christmas tree concert at Lone Pine Hall on Wednesday, December 23rd before an appreciative audience. Mr. George Burns presiding in his usual capable manner.

Some thirty-six items spread over two-and-a-half hours were the medium through which the Jutland pupils expressed themselves with clearness, enjoyment, and to good effect. Many favorable comments were passed upon the efforts of the children.

Some of the particularly pleasing items were: The flower drill, which involved a great deal of time and labor in preparing; Chorus:

HOCKEY

CROSSFIELD vs DIDSBURY

Didsbury won the league game
against Crossfield on Tuesday of last
week by a score of 4-2. The game
was hard-fought and both goalies
were kept busy. The Crossfield
Chronicle has this to say about the
game:

Cook up between Cook and
Gordon Young near the end of the
game gave the handful of spectators
an added thrill. Cook, a fast and
aggressive player, but inclined to
rough it a bit, mixed it with Gordon
Young. Gordon retaliated by popping
Mr. Cook three times in the
mouth before he had time to figure
out any New Year resolutions. Play-
ers stepped in and averted what
might easily have developed into a
free-for-all.

Charlie says this is not so.

DIDSBURY vs. AIRDRIE

Every man on the Didsbury
hockey team played a fine game on
Tuesday night when the locals trim-
med Airdrie 4-1. The game was
played on fast ice and started at a
snappy speed that soon resulted in
Johnnie Johnson bulging the vis-
itors' net for the first score. Russell
proved to be too good for Airdrie in
this contest and made a number of
"no-st" saves.

The home boys scored three goals
in the middle frame, when Airdrie
appeared to be outclassed altogether.
Cook, Johnson and Woodlock were
playing a pretty passing game that
had the visitors guessing all the
time. Charlie opened the scoring on
a pass from Johnson and Ken
Robinson soon followed with a sweet
solo effort. Ken was playing a
bang-up game on defence, his hook
check breaking up many a danger-
ous rush. The forward line of
Currie, Hugel and Berscht, with
Geiger on defence just about played
Airdrie to a standstill. Geiger
scored on Hugel's pass and the boys
had tough luck in missing a couple
of counters. Len Berscht shorted
up well and gets better every
game.

The last session looked as though
it would be scoreless. Both goalies
were making remarkable saves and
play was about even, with Airdrie
trying hard for a score. The period
was about half over before the vis-
itors broke into the scoring column.
Bas Klein took a long shot from
centre ice that trickled into the net
for a more or less luck score.

This is the locals fourth win in
the league, with no defeats, which
gives them a big lead for league
honors.

Didsbury: Russell; Hardy and
Robinson; Cook, Johnson and
Woodlock; Currie, Hugel, Len
Berscht and Geiger.

Airdrie: McDowell; Robertson and
Hutt; Lorimer, Klein, Korbridge;
Tees, Fletcher and Clayton.

In the High School League, the
Polcats again scored a victory over
the Wildcats with a score of 4-2.

Up to the present, the Polcats
have been undefeated.

LOCAL & GENERAL

Mr and Mrs E. G. Ranton spent
the week-end in Calgary.

Mr and Mrs J. Russell and Jean
visited at Cochrane over the holiday.

Mrs. G. Nixon and Miss Gwen
Nixon, of Edmonton spent New
Year's with Dr and Mrs Clarke.

Mr Ken Robinson visited with
his parents at Edmonton during the
holidays.

Mr. W. Sutherland, of Poncha
visited with friends here for New
Year's.

Miss H. Tempary, of the Royal
Bank staff, visited with her parents
at Cochrane during the holidays.

Miss Grace Ranton spent a few
days in Calgary last week with her
friend, Helen Teskey.

Mr. and Mrs. J. A. McGhee
attended the Shriners Ball in Calgary
New Year's Eve.

Mrs. Erven M. Rodney has been
visiting with her sister, Mrs. W. O.
Hieland, of Calgary.

Miss Margaret Ranton and Mr.
Frank Raymond, of Lacombe spent
the holidays with the former's
parents, Mr. and Mrs. E. G. Ranton.

Mr. A. J. McPherson, who was
formerly manager of the Traders'
Bank here, was renewing acquaint-
ances here over the holiday.

The Sacrament of the Lord's
Supper will be observed (D.V.) at
Knox United Church on Sunday,
January 10th. The ordination of
elders will also take place.

If you have anything you don't
need, we can sell it for you. Being
in your surplus goods. Someone is
continually calling for the things
you've got. - W. H. Chamberlin's
Secondhand Store.

The annual meeting of Knox
Church will be held (D.V.) on Sun-
day, 17th January for the receiving
of reports, election of officers and
transmission of any other relevant
business.

The sermon-subject at Zion Evan-
gelical Church Sunday morning,
January 10th will be: "The Light
of the World," and in the evening
at 7:30: "This Monkey Business"
or "Did God Create Man?"

Mr and Mrs. Harold Clemens,
of Edmonton, and Mr. Eddie Clem-
ens, of Calgary visited with Mr
and Mrs. M. B. Clemens for the
holidays.

Mr. and Mrs. Jim Adam and
Mr. and Mrs. E. B. Webster
attended the golden wedding anni-
versary of Mr. and Mrs. John
Surphin at Oids on December 21st.

The ice carnival held New Year's
Day under the auspices of the hockey
club was a success, and the hockey
boys thank the public of Didsbury
for their support.

Mr and Mrs. Chas. Ratcliffe, of
Kimberville, B.C. visited with the
latter's parents, Mr. and Mrs. M. B.
Clemens for the holidays.

WORLD HAPPENINGS BRIEFLY TOLD

Migration from Great Britain to the Dominion is not being encouraged or assisted at present, according to Hon. J. H. Thomas.

Lord Kilbrack moved a resolution in the House of Lords, urging no delay in calling the Imperial Conference in Ottawa.

Coal has been discovered in considerable quantities on the Homestead mine at Perry Creek in the East Kootenay, according to information received at Nelson, B.C.

Sir John Gilmour, Minister of Agriculture, has been appointed member of the British cabinet committee to attend the Imperial Economic Conference in Ottawa.

Henry Heikkinen, Port Arthur, Ont., has claimed bounty on the skins of nine timber wolves. He will receive \$225 for this record number of timber wolf skins.

No part of the world has a more assured economic future than Canada. Col. Hanford MacDonell, United States Minister to Canada, told the New England Council at Boston.

Reconstitution of the British House of Lords to allow members from Canada and other Dominions hold seats is suggested by "Scrutator" writing in the Sunday Times.

Miss Ethel Catherwood, Saskatchewan Olympic champion, has taken up residence in San Francisco, where she will remain until after the 1922 Olympic games.

Edward Alexander McCourt of Kitchener was declared Alberta Rhodes Scholar at a meeting of the selection committee held in Edmonton. McCourt has a brilliant scholastic and athletic record.

Commercial failures in Canada showed a decrease in September, totalling 193 compared with 192 in September, 1920. Liabilities of assignors totalled \$5,166,756 compared with \$2,981,474.

Production of railway rolling stock in Canada during 1920 was valued at \$104,992,701, the second highest figure on record. Of the 37 firms engaged in the industry four are in Manitoba and three in Alberta.

Dance Rachel Crowley, D.E.E., who was in Vancouver on her way to Great Britain from the conference of Pacific relations in the Orient, had words of praise for the work of the League of Nations in the Chinese-Japanese controversy.

Drouth Resisting Plants

Introduction Of New Type Of Grasses Might Be Of Great Value To Canada

Dr. O. McCauley, formerly of the Ontario Agricultural College at Guelph, expresses the opinion that in Russia might be found several plants of immense value to Canada and the rest of the world. He suggests a few kinds of grasses, search for plants which may with the work of scientists bring millions of dollars to Canada. In particular he thinks a search should be made for drouth resisting strains of plants and grasses in Russia, and plants resisting high winds and heavy snows in Scandinavia.

Since Dr. McCauley gave his report to the Empire marketing board, his theory has been confirmed by the discovery in the mountains of South Africa, of hitherto unknown drouth resisting woolly finger grass which is stated to be capable of supporting stock for a year without rainfall.

Stores of plant diseases are found 30,000 feet in the upper air by experts in airplanes.

"We must do what a lawyer does when he has no clients or a doctor when he has no patients."
"What is that?"
"Marry." From Vienna.

Drouth Remedy Is Sought

Saskatchewan Commission Lays Plans For Intensive Study Of Drouth Conditions

Saskatchewan's commission on conservation and afforestation, appointed by the Provincial Government to investigate causes of and seek remedies for, recurrent drouth in the southern portion of the province, laid definite plans for study and research at its initial meeting, Saturday, November 14.

Under chairmanship of Hon. J. F. Bryant, K.C., Minister of Public Works, the Commission formally accepted the responsibilities and duties as outlined in the order-in-council appointing it, and later struck committees from its membership to study various aspects of the subject as suggested in a report by Mr. Bryant, of a preliminary survey made by him. Members present at the meeting were: Hon. Mr. Bryant, Chairman; Prof. C. J. Mackenzie, Dean of Engineering, University of Saskatchewan; Dr. W. D. Cowan, M.P.; T. A. Patrick, M.D., Yorkton; and Lieut. Col. F. J. O'Leary, Consulting Engineer, Regina. Hon. W. C. Buckle, Minister of Agriculture, was the only absentee, being confined to his home by illness.

After discussing the various suggestions arising from the preliminary report submitted by Mr. Bryant, the Commission, together with a source of action that study should be made of the causes of drouth conditions in the province, together with a comparison of similar conditions in other parts of the world, the cause in each case, the steps taken to remedy their recurrence, and the results achieved.

In opening the meeting, Hon. Mr. Bryant outlined the preliminary steps taken to assemble data for the Commission. Numerous reports, books and documents dealing with problems of conservation and afforestation had been obtained from the Forestry Commission of England, the governments of France, Sweden, Germany and the United States, from the government of the province of Ontario, the state of Nebraska, the different Canadian states, and from many private individuals and organizations. Mr. Bryant intimated that the Canadian National Railway had placed at the disposal of the commission their engineering staff and the services of Mr. Maitland, their chief water engineer, who, for two months, had conducted a reconnaissance survey of dam sites suggested by secretary-treasurers of municipalities in the drouth area, with a view to the disposal of surplus water.

The Canadian Pacific Railway, similarly, had placed available data at the disposal of the commission, together with its engineering services in connection with the conservation of water in Western Canada. Acknowledgment was made of the assistance given by A. A. W. Mackenzie, Queen's University; Frank J. D. Burroughs, Montreal; T. Ferguson, Victoria; B. L. Brown, Moose Jaw Technical School; Z. M. Hamilton, and many others. The chairman stated that, as the Commission was serving without remuneration and, as far as possible, without expenditure of public money, it had been decided to assemble as much data as possible before calling a general meeting of the members. Approval of the preliminary steps taken by Mr. Bryant was given, by resolution, at the meeting.

The following committees were appointed to probe the various phases of the general problem. On Afforestation: Hon. Mr. Bryant, convenor; Hon. Mr. Buckle and Dr. Cowan. On Conservation: Dean Mackenzie, convenor; Col. O'Leary and Dr. Patrick. On Soil Drift: Hon. Mr. Buckle, convenor; Dean Mackenzie and Hon. Mr. Bryant. This committee was appointed to ascertain methods of controlling soil drift, with a particular recommendation that it study a combination of hedge planting, with grass and clover and strip farming campaign. In order to make the best possible use of the government's campaign hedge project. To this end it was suggested that a single township be taken here and there throughout the drouth area, to which methods of soil conservation might be applied as a demonstration and starting point for a province-wide scheme.

This committee was given authority to enlist the services of Norman Hays, chief of the Forestry Branch of the Federal Department of Agriculture; Dean A. A. W. Mackenzie, Agricultural College, Saskatoon; Prof. L. E. Kirk, University of Alberta; E. Taggart, superintendent, Experimental Farm, Swift Current, and others, in an advisory capacity.

A committee, composed of Dean Mackenzie, convenor; Hon. Mr. Bryant, Dr. Patrick and Dr. Cowan, was appointed to study weather, conditions, climate, rainfall, and water supply in their relationship to all external causes, and effects, prevailing in the drouth area of the province and surrounding territories.

It was further agreed that, with a view to investigating and developing the underground water supplies of Saskatchewan, Dr. A. T. ABE, Professor of Physics, and Dr. Maxwell, Professor of Geology, both of the University of Saskatchewan, be requested to assist the committee on conservation. Dean Mackenzie assured the Commission that the entire staff and equipment of the provincial university were at its service as the work was recognized

Christmas Seal Sale PROVIDES FUNDS FOR Fight Against Tuberculosis

The "Sen," Near Fort Qu'Appelle

Ideally located amid surroundings of great natural charm in the beautiful Qu'Appelle Valley, the first Tuberculosis Sanatorium is an institution of which this province has every reason to be proud as it is the sister institution, located at Saskatoon and Prince Albert. In their close to 800 patients are under constant treatment and as a result of the efficient manner in which the fight against tuberculosis is being waged the death rate in Saskatchewan is the lowest of any province in the Dominion and just over half that of the average for Canada's whole. In Saskatchewan there are 46 deaths per 100,000 of population while in Canada there are 104 deaths per 100,000. Last year there were 407 deaths from tuberculosis in this province. Tuberculosis is the greatest cause of death during the first third of the century, causing one out of every five deaths during this age period.

Funds for the maintenance of Sanatoria and the care of patients are provided by taxes and the knowledge that fortunate sufferers are being taken care of is comforting indeed. But in spite of all that is being done the loss both in life and unemployment, from tuberculosis, is staggering. In Saskatchewan an individual of one funeral every day and two every Sunday occur as a result of this disease. And more than the number under treatment in our Sanatoria are convalescing in their homes and are still unable to work. The period of total disability from this disease averages about two years per person.

Education regarding tuberculosis is essential for the central of the spread

of this dread disease. And never was the need for education greater than at present, as it is during times of depression, when a portion of our people are under-nourished and under-clothed, tuberculosis makes the greatest headway.

The sale of Christmas seals is the chief source of revenue for educational and preventive work. The old saying "prevention is better than cure" applies with particular force in this connection. Preventive work is the most important phase of anti-tubercular work and this is financed by voluntary contributions. As a result of the sale of Christmas seals last year, 5,523 persons in Saskatchewan received examination or other attention. The money raised by the sale of Christmas seals helps finance the care of new-born babies whose mothers were tubercular; helps pay for the examination of those who have been in contact with tubercular patients; helps finance the examination of those suspected by their physicians of having tuberculosis; and helps carry on an educational campaign.

Letters are now being mailed in thousands of every community in Saskatchewan containing sheets of Christmas Seals. Their value is one dollar a sheet—one cent a seal. These seals brighten up letters and parcels and the revenue they bring in helps to promote a good and recovery humanitarian work. Because the times are difficult the need for preventive work is greater than ever and the Anti-Tuberculosis League considers it the duty of the generosity of the people of Saskatchewan to enable it to meet whatever demands may be made upon it during the coming year.

Recipes For This Week

(By Betty Barclay)

STRAWBERRY JELLY ROLL

- (4 eggs)
- 1/2 cup special cake flour, sifted.
- 1 teaspoon baking powder.
- 1 teaspoon salt.
- 3 cups sifted sugar.
- 4 eggs yolks, stiffly beaten.
- 4 egg whites, beaten until thick and lemon-colored.
- 1 teaspoon vanilla.
- Strawberry jelly.

Sift flour once, measure, add baking powder and salt, and sift together three times. Fold in sugar and egg whites, a small amount at a time. Add egg yolks and vanilla. Fold in fruit gradually. Pour into pan, 8 1/2 x 13 1/2 inches, lined with buttered paper, and bake in hot oven (400 degrees Fahrenheit) 12 minutes. Turn from pan at once onto cloth covered with powdered sugar. Remove paper. Quickly cut off crisp edges of cake. Spread with jelly and roll. Wrap in cloth until cool.

TARTS AUX ORGNOONS

Slice thin four large onions. Put in a quart of cold, salted water. Add a teaspoon of sugar and bring to a boil on a quick fire. Cook a few minutes, remove from the fire and drain. Add the onions to a quart of lard or butter that has been melted in a saucepan, and cook until they are slightly browned. Add three slices of bacon that have been cut into small pieces and cooked in butter. Let the mixture cool until it is just warm. Add three eggs beaten lightly with four tablespoons of cream. Fill tart shells with the mixture, pour melted butter over them, and bake until set.

Away To Good Start

When a new \$250,000 hospital was opened at Sutton, England, it was announced that the institution had the unique distinction of being entirely free from debt.

Fixing the depth of the Greenland ice cap at 8,650 feet, a German scientific group solved an ancient puzzle recently.

Business Men Are More Optimistic

Increasing Confidence Is Reported By Leading Advertising Agencies

A good barometer of the improved morale is the verdict of the advertising agencies that business men have seen a ray of light and are still looking forward. J. J. Gibbons, president of J. J. Gibbons, Limited, found large manufacturers more ready to discuss campaigns for advertising in the coming year. They are now more ready to spend money, he said. He looked for a big development in the early months of 1922, although he did not look for any boom in business.

H. H. Frittle, Toronto manager for A. McKim, Limited, said he had noticed a fine response from business men who, while unwilling to admit prosperity had come back to Canada through a rise in the price of wheat or even other influences, are beginning to believe that they will work their way out very soon. "No one is now feeling blue," he said. "Higher wheat prices have made smoother the path to a growth in business, and possibly good times sooner than we expect." Christmas business, he thought, would tell a good part of the story.

There is a good deal more confidence now," said James Fisher of the James Fisher Advertising Agency. "Manufacturers are now making plans for next year with more determination. Things seem to be settling down to sounder business. There is not that knocked-out feeling that was around a short time ago." Back in 1920 and 1921 there was a serious lack of confidence, Mr. Fisher recalled. The first signs of returning prosperity seemed to become evident when manufacturers gradually became more determined. "This returning wave of determination is evident again now, and seems to foretell prosperity at no very distant time," he said.

To Extend Park Highway

New Road To Pacific Coast Via The Yellowstone Pass

A new and attractive section of Jasper Park, one of the largest of the National Parks of Canada, will be made available for motorists with the completion of a new section of highway to the boundary of British Columbia. Work on the first 18 miles of the new highway, which will eventually join Alberta with the Pacific Coast via the Yellowstone Pass, is to commence this week.

A road, not yet up to highway standards, now runs from Edmonton to Jasper National Park. Between the park and Prince Rupert, British Columbia, several gaps in the highway must be completed before the motorist can travel to the Pacific Coast, but a portion of this work is now under consideration by the British Columbia Government. Communication to the south, however, are now being provided by the Dominion Government, work being already underway on the highway through the mountains which will join Banff and Jasper.

A Lucky Steeplejack

Watch Dropped From High Spire Was Not Injured

Edward Boles, steeplejack, sat on the foremost point of the spire of St. James' Church, Toronto, and painted. He shifted his position, and his watch, kept in a pocket of his overalls, slipped out, and dropped. Later, he searched for the wreckage of the timepiece. There was no wreckage. The watch, as sound as the day it left the factory, ticked merrily away on the small patch of grassward on which it had alighted. Not even the glass was broken.

Dragon flies in prehistoric times had a two-foot wing expansion.

"Please, sir, a lunatic has broken into the room where your wife is." "Can't help what trouble the lunatic gets into—he can take the hell if he likes." Der Brumme, Der Tag.

CHAPTER VII.—Continued.

This reflection stung her pride—exactly as Conscience had intended it should, without doubt. Last night there had seemed to her no question about the quality of that farewell in the little screened-off alcove. "There had been nothing common or 'cheap' about it. The gathering incidents of the whole day, the fight through the storm, the prelude of 'Valse Triste,' all seemed to have led her by imperceptible degrees to a point where she and the Englishman could kiss at parting without shame. And now, with the morning, the delicate rainbow veiling women by romance was rudely torn, assailed, and the word 'cheap' dinned in her ears like the clapper of a bell.

The appearance of her 'premier dejeuner' came as a welcome distraction from her thoughts, and with the consumption of 'café au lait' and the crisp little rolls, but from the oven, accompanying it, the whole matter began to assume a less heinous aspect. After all, argued Jean's weak human nature, the unconventional of the affair had been considerably tempered by the fact that the Englishman had practically saved her life during the course of the day. Alas, she would undoubtedly have foundered in the drifting snow; and when a man has rescued you from an early and unpleasantly chilly grave, it certainly sets the acquaintance between you, however short its duration, on a new and more intimate plane.

"Good-bye, little comrade; thank you for my magic moment."

"The words, and the manner of their utterance, came back to Jean, bringing with them a warm and comforting reassurance. The man who had thus spoken had not thought her cheap; he was too fine in his perceptions to have misunderstood like that. She felt suddenly certain of it. And the pendulum of self-respect swung back into its place once more.

Presently she caught herself wondering whether she would see him again before she left Montevideo. True, he had told her he was going away next day. But had he actually gone? Somewhere within her lurked a fugitive, half-formed hope that he might have altered his intention.

She tried to brush the thought aside, refusing to recognize it and determinedly maintaining that it mattered nothing to her whether he stayed or went. Nevertheless, throughout the whole day, in the morning when she made a pretence of enjoying the skating on the rink, and again in the afternoon when she walked through the pine-woods with the Varignys—she was subconsciously alert for any glimpse of the lean, supple figure which a single day had sufficed to make so acutely familiar.

But by evening she was driven into accepting the fact that he had quitted the mountains, and of a sudden Montevideo ceased to interest her; the magic that had disused it yesterday was gone. It had become merely a

stagnant little village where she was awaiting Lady Anne Brennan's answer to her father's letter, and she grew restlessly impatient for that answer to arrive.

It came at last, during the afternoon of the following day, in the form of a telegram: "Delighted to welcome you. Letter follows."

The letter followed in due course, two days later, the tardiness of its arrival accounted for by the fact that the writer had been moving about from place to place, and that Peterson's own letter, after pursuing her for days, had only just caught up with her.

"I cannot tell you," wrote Lady Anne in her sonorous, characteristic hand, "how delighted I shall be to have the daughter of Glyn and Jacqueline with me for a time. Although Glyn with a grown-up daughter sounds quite improbable; he never really grew up himself. So you must come and convince me that the unexpected has happened."

Jean liked the warm-hearted, unconventional tone of the letter, and the knowledge that she would so soon be leaving Montevideo filled her with a sense of relief.

During the four days which had elapsed since the Englishman's departure her restlessness had grown on her. Montevideo had become too vividly reminiscent of the hours which they had shared together for her peace of mind. She wanted to forget that stolen day—thrust it away into the back-ground of her thoughts.

Unfortunately for the success of her efforts in this direction, the element of the unknown which surrounded the Englishman, quite apart from anything else, would have tended to keep him in the forefront of her mind. It was only now, surveying their acquaintance in retrospect, that she fully realized how complete had been his reticence. True his figure dominated her thoughts, but it was a figure devoid of any background of home, or friends, or profession. He might be a king or a crossing-sweeper, for all she knew to the contrary; only that neither the members of the one nor the other profession are usually addicted to sojourning at Swiss chalets and forming promiscuous friendships on the ice.

There were moments when she felt that she detested this man from nowhere who had contrived to break through her feminine guard of aloofness merely to gratify his whim to spend a day in her company.

But there were other moments when the memory of that stolen day glowed and pulsed like some rare gem against the even, grey monotony of all the days that had preceded it—and of those which must come after. She could not have analyzed, even to herself, the emotions it had awakened in her. They were too complex, too fluctuating.

As she packed her trunks in preparation for an early start the following day, Jean recalled with satisfaction the genuine ring of welcome which had come from England. Until she had received it, she had been the prey of an increasing diffidence with regard to suddenly billeting herself for an indefinite period upon even such an old friend of her father's as Lady Anne—a timidity Peterson himself had certainly not shared when he penned his request.

Give my little girl house-room, will you, Anne?" he had written; with that candid and charming simplicity which had made and kept for him a host of friends through all the vicissitudes of his varied and irresponsible career. "I am off once more on a winter-year, and I can't be tipped up by a petticoat, certainly not my own daughter's, at every yard. This isn't quite as cynical as it sounds. You'll understand, I know. Frankly, a man whose life, to all intents and purposes, is one, is not fit company for youth and beauty standing palpitating on the edge of the world. By the way, did I tell you that Jean is rather beautiful? I forget. Let her see England—that little corner where she lies down Devonshire way, all ways means England to my mind. And let her learn to love English-ness, if there are any more there like you."

And, having accomplished this characteristic, if somewhat sketchy provision for his daughter's welfare, Peterson had gone cheerfully on his way, convinced that he had done all that was paternally incumbent on him.

Madame de Varigny was void of her regrets at the prospect of losing her "chère Mademoiselle Peterson," yet in spite of her protestations of

disarray Jean was conscious of an impression that the Countess derived some kind of satisfaction from the imminence of her departure.

She could not reconcile the contradiction, and it worried her a little. She believed—quite justly—that Madame de Varigny had conceived a real affection for her, and, as far as she herself was concerned, she had considerably revised her first impressions of the other, finding more like in her than she had anticipated, noticeably a genuine warmth and fervour of nature, and a certain kind-hearted capacity for interesting herself in other people.

And liking her so much better than she had at first conceived possible, Jean resented the sudden recurrence of her original distaste produced by the suggestion of insincerity which she thought she detected in the Countess's expressions of regret.

On the face of it the thing seemed absurd. She could imagine no conceivable reason why her departure should give Madame de Varigny any particular cause for complacency, which might make the more perplexing her impression that this was the actual feeling underlying the latter's cordial interest in her projected visit to England.

On the morning of her departure, Jean's mind was too preoccupied with the small details attendant upon starting off on a journey to dwell upon the matter. But, as she shook hands with Madame de Varigny for the last time, the recollection surged over her afresh, and she was strongly conscious that beneath the other woman's pleasant, "Adieu, mademoiselle! Bon voyage!" something stirred that was less pleasant—even inimical—just as some almy and repulsive form of life may stir amid the ooze at the bottom of a sunlit stream.

(To Be Continued.)

Persian Balm the perfect aid to beauty. Only resists to real feminine distinction. Results always in the highest expression of beauty. Its use keeps the hands always soft and flawlessly white. Indispensable to the whole family. Imparts added charm to the mother. Seizes the father as a hair fixative and cooling shaving lotion, and protects the tender skin of the toilet requisite.

Sees Improved Conditions

London Governor Of Hudson's Bay Company Pleased With Visit To Canada

P. Ashley Cooper, of London, England, governor of the Hudson's Bay Company, who sailed for home recently, on the White Star liner "Britannic," said conditions in Canada are better than is generally known.

"Conditions were definitely better than I had believed before I went there," he said. Mr. Cooper spent two and a half months visiting the company's branches throughout western Canada.

Speaking of tariff proposals as protection for the empire, he said: "A tariff is essential to England, not that I believe in a tariff, but we must do it to protect ourselves against the high tariff walls erected by other nations."

'Plane To Race Sun

Has Been Designed By Famous German Aircraft Builder

An aeroplane to fly the stratosphere and race the sun around the earth has been constructed by Dr. Hugo Junkers, famous aircraft builder of Dessau, Germany. It was revealed at Cleveland.

The 'plane, designed to fly 1,000 miles an hour, was described by G. S. Venheydenkaph, a research engineer, here to attend a national clinic on metals and alloys. He recently viewed the new 'plane at the Junkers' plant.

He said the craft has the appearance of the usual low-wing cabin monoplane, only that it has an exceptionally long fuselage. It is an all-metal 'plane, built of duralumin.

To permit the engine to run in the rarified atmosphere at an altitude of more than seven miles, the air is fed to it by a compressor of new design.

THE RHYMING OPTIMIST

By Aline Michaels

MEMORY

Time was he came for but a day, an hour
And then must turn from out my silent street.

Some beauty talking with him from each flower,
And leaving last songs by a shade less sweet.

And in the intervals I saw him not.
Life, flowing, seethed and swept us for again.

Took even the thought of him to some strange spot
I could not reach with all my longing heart.

And now he enters, here no more at all.
The quiet garden never hears his tread.

He does not come to watch the bright leaves fall.
For him spring's litany remains unsaid.

Yet, in some fashion I cannot explain,
I keep him by me, never to go again!

To Asthma Sufferers. Dr. J. D. Kellogg's Asthma Remedy comes with a helping hand to a sinking swimmer. It gives life and hope—something he has come to believe impossible. Its benefit is too evident to be questioned. It is his own best advertisement—its own best advertisement. If you suffer from asthma get this time-tested remedy and find help like thousands of others.

To Speed Correspondence

Typewriter-Telegraph System To Be Installed In Homes and Offices

Spirited competition between the American Telephone and Telegraph Company on the one hand, and the Western Union and Postal Telegraph Companies on the other, began in a new system of local and long-distance message communication.

Automatic typewriter-telegraph instruments, with standard typewriter keyboards, will be offered for installation in homes and offices. The machines will be similar to those used for the transmission of telegrams and for the nation-wide distribution of news by press associations.

Under the new system a subscriber to the service may signal a central operator and have his machine connected with the machine of any other subscriber, whether that person is in the next building or on the other side of the country.

To Manufacture Typewriters

Stated That Plant Will Be Constructed Immediately In Toronto

Announcement that a plant for the manufacture of typewriters will be constructed immediately in Toronto followed the imposition of the emergency British tariff against imported manufactured goods.

The United Typewriter Company, Ltd., until now the Canadian distributing and assembling representative of the Underwood Typewriter Company of the United States, will build a plant for manufacture of these machines for export to Great Britain.

And Called By Fancy Name
Catfish skins, exported from Yarmouth, Nova Scotia, to the United States, make a soft and pliable leather, which is readily dyed in gay or sombre colours and is used in the manufacture of ladies' handbags and shoes.

HOW SHE KEEPS HER WEIGHT DOWN

"I do secretarial work, and therefore lead a more or less sedentary life," writes Miss L. M. A. "I find a small dose of Kruschen Salts every morning keeps me perfectly fit and in good condition. My normal weight is 116 lbs., and having taken Kruschen Salts regularly for three years, I never put on surplus weight."

You cannot put on superfluous flesh when you are as healthy and active as you must be if you take Kruschen Salts. Activity is the enemy of fat. When you take invigorating Kruschen Salts for a few days that old indolent arm-chair feeling deserts you—it doesn't matter how fat you are—the urge for activity has got you—and you're 'stepping lively!'

And best of all you like this activity—
—you walk a couple of miles and enjoy it—you thought you'd never dance again, but you find you're getting as spry as ever—the old tingling, active feeling reaches every part of you.

One bottle is enough to move in you that Kruschen will make you feel younger—sweeter—more energetic—you'll enjoy life—every minute of it.

Little Helps For This Week

"The Lord is nigh unto all them that call upon Him: to all that call upon Him in truth."—Psalm cxlv. 18.

The Heart's unspoken pain He knows. The secret sighs He hears full well. What to none else thou dardest disclose.

To Him thou mayst with boldness tell. He is not far away, but ever nigh. And answereth willingly the poor man's cry.

—Paul Gerhardt.

The Lord can prevent trouble, or remove trouble; but what is best of all, He can sanctify troubles, making them real blessings, and that is what He, out of infinite love, generally chooses to do.

—Christian's Pocket-Book.

Wise mothers who know the virtue of Mother Graves' Worm Exterminator always have it at hand, because it proves its value.

India's Complex Calendar

Every Day In Week Has Several Different Names

To each of the 17 calendars used in India, a Hindu compiler devotes three months in preparation. It is also recorded that the earliest example known of a well authenticated weekday in Indian inscriptions is in a year corresponding to A.D. 484-6, the years years after Buddha died. Since then the following complexity of different names of week-days has arisen, as recorded by Robert Sewall in the Indian Calendar. Sunday has more than 12 names; Monday has more than 6 names; Wednesday has more than 5 names; Thursday has more than 7 names; Friday has more than 8 names; Saturday has more than 4 names.

WHEN FOOD SOURS

ABOUT two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia. Just a tasteless dose. It is pleasant, efficient and harmless. But it must be taken constantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for correcting excess acids. See a bottle—any drug store. The ideal dentifrice for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior tooth-paste that safeguards against acid mouth. (Made in Canada.)

Mountain View Notes

Mr. and Mrs. Archie Ronnie, of Blackie spent the week-end at the B. A. Atkinson home.

Miss Doris Brown returned on Sunday to resume her duties at Mona School.

Mrs. B. A. Atkinson spent the holidays at Nisbet as the guest of Mrs. Thos. Towers and Mrs. A. M. Nisbet.

Our friends, the new Canadians on the Burns ranch provided us with a treat in the Christmas program at Mona School when they rendered carols in their native tongue. Mr. Walkenstein, their leader is to be congratulated on his choir, and we hope they will favor us on many future occasions.

BERGEN—NICHE VALLEY

Miss Irene McConnell is enjoying her vacation in Calgary.

Rev. A. Traub preached at Bergen last Sunday afternoon and evening.

Mrs. Albert Olson entertained the ladies of the community on New Year's day.

Harvey Burgess has returned from his vacation and is ready for his school duties seen to come.

Mr. Fullerton, of Red Deer hauled a truckload of lumber from Niche Valley recently.

The Carlier oilwell is now down about 1,000 ft. and there are good indications of oil.

There are about a hundred men doing relief work at Coal Camp at present. They may be making a road to Banff.

R. G. Stevens has sold his sawmill in Niche Valley and it will be moved to Sundre. Bob and Grace are living in town at present.

Bergen and Eidsvold Christmas programs were excellent in every way, the dialogues being exceptionally well rendered and earning many a hearty laugh.

The stag at ev had drunk his fill. Where danced the moon on Monan's hill.

And deep his midnight life had made in lone Glenartney's hazel shade.

—Scott.

Now that the nimrods have departed and the deer have resumed their feeding unmolested, we feel at liberty to walk abroad without getting bullets in a part of our anatomy. Messrs. Neufeld, Panick and Ozro Traub were among the would-be deer slayers.

One of the largest and most enjoyable dinners was held at Charlie Erickson's last Sunday. Among those present were John Mielness and family, Mrs. Louis Mielness and family, Alfred Mielness, Erling, Lief, Einar, Brundt, Fritz and a host of friends and neighbors. A real feast of good old-time dishes, such as "Lafe Fiske," "Flat Brod," "Plynost," "D. B. stags Kaffee," and "Fiske." Some of the uninitiated were not sure whether the "Flat Brod" was not some new kind of hupkin. There were sixty-seven people present and all wish Charlie many returns of the Happy New Year.

"What could the farmers hope to accomplish in 1932? A year of agricultural poverty. There is little money to be made in the farm. The property of the farmer than the bank."

"It has been a hard year, any place where the farmer is living. I have been in New Brunswick and Arthur Train well known in the country at a winter dinner given at a winter resort by Dr. New Brunswick Tourist Travel Bureau."

The farmers are not getting any place where the farmer is living. I have been in New Brunswick and Arthur Train well known in the country at a winter dinner given at a winter resort by Dr. New Brunswick Tourist Travel Bureau."

The farmers are not getting any place where the farmer is living. I have been in New Brunswick and Arthur Train well known in the country at a winter dinner given at a winter resort by Dr. New Brunswick Tourist Travel Bureau."

Melvin Notes

Miss Florence O'Brien returned to New Norway on Saturday.

Mrs. Alma Gadd visited with her sister, Mrs. F. Johnston during the holidays.

Miss Ruth Johnston has returned home after nursing Mrs. Geo. Metz, east of town.

Mrs. Johnston and Marion visited with Mrs. Ed. Vetter at Three Hills last week.

Mr. and Mrs. Tom Duncan spent Sunday with Mr. and Mrs. George Youngs.

Mr. and Mrs. Norman Clarke were guests of Mr. and Mrs. John Clarke on Sunday.

Miss Marion Leeson, of Calgary spent her Christmas holidays with her parents, Mr. and Mrs. F. Leeson.

The dance at Melvin December 31 proved a great success, especially after midnight.

Mr. and Mrs. Cliff Gibbs and family spent Sunday with Mr. and Mrs. Whiteside.

Mr. Heath Lapard, who has been visiting with Mr. and Mrs. A. Krebs, returned to Edmonton for Christmas.

Mr. and Mrs. Trower, of Didsbury, spent Christmas at the home of their daughter, Mrs. Peter Johnston.

Mr. J. Schneidmiller brought his little boy home from the hospital last week. We hope for a speedy recovery.

Mrs. E. Krebs is this week taking care of her mother, Mrs. Kershaw, who has been ill for some time.

The many friends of Mr. O. R. Swingle will be sorry to learn that word was received from Chilliwack, B.C. Monday, stating Mr. Swingle's condition as not improving.

A social evening was given in Melvin school on Saturday night in honor of Edgar Wiggins, of Camrose Normal, who visited in the district during his holidays. He was presented with a bridge set as a token of appreciation of his work as a member of the Go-Getters Club.

Burnside Notes.

We extend our sympathy to Mr. Geo. Metz and family in their recent bereavement.

Mr. and Mrs. Walter McCoy were visitors with the latter's parents, Mr. and Mrs. Jim Sheils over New Year's.

Mr. Nelson McLean is visiting his aunt and uncle, Mr. and Mrs. John Topley and other friends here.

Born: At the Didsbury General Hospital, Thurs. (Dec. 24) to Mr. and Mrs. Glen Fulkert, a daughter.

Mr. and Mrs. Jim McAlloch are receiving congratulations on the birth of a daughter, Tessa, Dec. 29.

Lone Pine W.I. will meet on Thursday, January 14th at the home of Mrs. W. G. Dick.

Mr. and Mrs. Duncan Morrison and family, of Coburn school district spent Sunday with Mr. and Mrs. Neath Eckel.

Mr. and Mrs. A. E. Thompson, son, and son, Harold, and Mr. and Mrs. A. E. Thompson, junr, and son, Donald; Messrs. Hammond Olsen and Ralph Long were New Year's Day visitors with Mr. and Mrs. Neath Eckel.

Community Club, which meets every Tuesday evening in Lone Pine Hall, are holding a dance this Friday evening, January 8th. They are also practising for a concert and dance to be held on Friday evening, January 22nd.

We heard with regret of the passing of Mrs. Anna Elizabeth Larrett, formerly Mrs. Van Wyk, of Jutland school district, who was well and favorably known in this district. She leaves to mourn her loss, her husband, Walter Larrett, of Priddis, and five sons, Sim, Anton, Catherine and Marjorie Van Wyk, of Priddis, and Lief Van Wyk, who resides in Salt Lake City.

CARD OF THANKS

Mr. George Metz and family wish to express their sincere thanks for the sympathy and help they received during their recent bereavement.
